Hesston Elementary School
Hesston , Ks
2011 Kansas Green School

The Specials: Brandy (PE), Candy(Music), Stephanie(Counselor) Team develops a year-long theme and then collaborates twice a month to plan activities for staff and students around theme.

Our Goal

- GREEN SCHOOL BANNER

- What activities could we incorporate that would be achievable, fun and gain support from students and staff?
- How and When are we going to find time to do this?
- Where are the funds going to come from?

Worm Bin and Butterfly Garden

Planning:

- **Specials team meet twice a month. Focus on upcoming activities and incorporate our “Green Theme” into them**
 - *Red Ribbon—Recycling Relay and Sorting of Trash into hula hoops.
 - *Recycling Rap in Music
 - *Have each grade be responsible for an activity:
 - 4th grade watering team
 - 3rd grade recycling team
 - 2nd grade weed pulling team

How did we pay?

Sadly.....we used our own curriculum budgets for most of the products we needed to purchased.

We begged our local business for the rest 😊

*Dyck Arboretum consulted with us about the butterfly garden. They informed us what plants would withstand the heat and where to plant them properly.

*Stone Creek will donate wood chips this fall.

This year...

- **Recycling Team will begin in August.**
- **Worm bin will continue to provide fertile soil to our garden.**
- **Garden will need tons of work.
Weeding and adding wood chips when school begins.**

Coming Soon...

- Stepping Stones and Rain Barrel
